

AUTO CHANGEOVER PANEL

Auto Changeover Panel for Continuous Gas Flow

Main Features -

- Double Stage Regulators made of Stainless Steel 316 Grade Body.
- Maintenance Free Operation.
- SS Filter inbuilt in regulator to capture foreign particles.
- 1/4" NPT connections for Inlet & Outlet.
- Aluminium Powder Coated Handle for Smooth Grip,
- Longer Life & Trouble Free Function.
- Handle Design for Easy Indication

Technical Specifications

- Pressure Range - 0-300 Bar
- Maximum Working Pressure - 230 Bar
- Changeover Pressure Ratings - 0-20 Bar

Main Components Details

- Regulator Body SS 316L electropolished & ultra cleaned.
- SS Diaphragm.
- PCTFE / PEEK Seat for accurate pressure controls
- Leak Integrity 1×10^{-9} mbar L/sec for He
- Low Content Gas Alarm Warning
- SS High Pressure Valve for controlling / On / Off
- LHS & RHS of gas manifold system.
- Model - UPP1000 - 2U-1x1-10.5 - 230 - GT.
